BLASPHEMOVS WAR

BIOGRAFIA

Blasphemovs War é uma banda de black metal originária de Caracas, Venezuela, formada em 24 de dezembro 2019. Fundada por Varulfur. Spektral e Kaos Mortiferiis, a banda nasceu com o objetivo de fortalecer o underground do black metal na cidade, cenário que até então era praticamente inexistente.

Após a saída de Varulfur, o grupo passou por um período de pausa enquanto buscava novos integrantes. Nesse processo, Spektral conheceu o Šaeth, que trouxe para a guitarra rítmica, e penumbrius assumiu os vocais principais, completando no lineup atual.

A formação se consolidou ainda mais com a chegada de Sancófito, que adicionou riffs agressivos e elementos melódicos à sonoridade.

BIOGRAPHY

Blasphemovs War is a black metal band from Caracas, Venezuela, formed on December 24, 2019. Founded by Varulfur, Spektral, and Kaos Mortiferiis, the band was born with the purpose of

strengthening the underground black metal scene in the city, which until then was virtually nonexistent. Inspired by old-school European black metal, they created a **raw, intense, and atmospheric sound** that quickly became the band's essence.

After Varulfur's departure, the group went through a hiatus while searching for new members. During this process, Spektral met Saeth, who brought fresh ideas, helped restructure older compositions, and designed the band's official logo. Shortly after, Tempestus joined as guitarist and vocalist, significantly contributing to songwriting.

The lineup was further solidified with the arrival of Sancófito, who added aggressive riffs and melodic elements to their sound. Nihiloss (formerly Saeth) returned as rhythm guitarist, while Penumbrius took over as lead vocalist, completing the current lineup.

MUSICAL STYLE & INFLUENCES

Blasphemovs War's sound is heavily influenced by classic European black metal acts such as **Darkthrone, Satanic Warmaster, Sargeist, and Horna**. Their lyrics explore dark themes including **war, chaos, darkness, and the power of extreme metal** as a form of artistic expression.
